The Anarchist Cookbook will shock, it will disturb, it will provoke. It places in historical perspective an era when "Turn on, Burn down, Blow up" are revolutionary slogans of the day. Says the author "This book... is not written for the members of fringe political groups, such as the Weatherman, or The Minutemen. Those radical groups don't need this book. They already know everything that's in here. If the real people of America, the silent majority, are going to survive, they must educate themselves. That is the purpose of this book."

In what the author considers a survival guide, there is explicit information on the uses and effects of drugs, ranging from pot to heroin to peanuts. There is detailed advice concerning electronics, sabotage, and surveillance, with data on everything from bugs to scramblers. There is a comprehensive chapter on natural, non-lethal, and lethal weapons, running the gamut from cattle prods to sub-machine guns to bows and arrows.

Will Evans's writings should find a special niche in the small but significant body of literature from and about traders to the Navajos.

Evans was the proprietor of the Shiprock Trading Company. Probably more than most of his fellow traders, he had a strong interest in Navajo culture. The effort he made to record and share what he learned certainly was unusual. He published in the Farmington and New

Mexico newspapers and other periodicals, compiling many of his pieces into a book manuscript. His subjects were Navajos he knew and traded with, their stories of historic events such as the Long Walk, and descriptions of their culture as he, an outsider without academic training, understood it. Evans's writings were colored by his fondness for, uncommon access to, and friendships with Navajos, and by who he was: a trader, folk artist, and Mormon. He accurately portrayed the operations of a trading post and knew both the material and artistic value of Navajo crafts. His

art was mainly inspired by Navajo sandpainting. He appropriated and, no doubt, sometimes misappropriated that sacred art to paint surfaces and objects of all kinds. As a Mormon, he had particular views of who the Navajos were and what they believed and was representative of a large class of often-overlooked traders. Much of the Navajo trade in the Four Corners region and farther west was operated by Mormons. They had a significant historical role as intermediaries, or brokers, between Native and European American peoples in this part of the West. Well connected at the center of

This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.
