I have a 2014 Cruze LS with the 6 speed manual transmission. I'm looking to change my transmission fluid. The manual calls for GM part 19259104, however after spending some time on the Cruze Talk forum I've seen this being recommended. I have no clue what specifies which type of fluid is comparable to others.

hey all, new to the forum. just bought a 2013 cruze LT manual with 30k on it for 10500 out the door. not a bad deal IMHO. I just bought three quarts of amsoil synchromesh to swap into my transmission. that being said, should I try to get a new transmission from the local Chevy dealer since this is still covered under the power train warranty or do I just swap out the fluid and work with what I ...

Don't know for sure, but just add 2 quarts if the tranny was drained, start the engine up and with your foot on the brake peddle, run it threw the gears to circulate the fluid. Check the fluid level, and keep adding as necessary until full. If there is no dip stick, you add fluid until it is up to the bottom of the plug hole.
