Climbing Anchors:

SRENE, an Introduction

Climbing Anchors

A climbing anchor is a system made up of individual anchor points that are linked together to create a master point that the rope and/or climbers clip into to be securely attached to the rock. Whether you're top-rope climbing or lead climbing, knowing

Climbing

Climbing Anchors and the Evolution of the Quad Technical rope work is both a science and an art. It's a balancing act between situation, simplicity, efficiency, and proven understanding.

Anchoring is an excellent example of this.
