Florence, SC – ESAB Cutting Systems introduces the Vision 51R Control for retrofit onto cutting gantries. Designed to quickly replace older Vision series controls, the Vision 51R controller combines the reliability of a solid-state PC based control with the stability of the Windows® CE operating system.

### ESAB Introduces Vision 51R Control for Retrofits

The VISION 52 from ESAB satisfies all demands that are made on the control of modern gantry cutting machines. With the integrated cutting database you can generate fully automated production cycles to match your individual needs. All the processes involved are controlled directly by the VISION 52, so additional manual settings are unnecessary.

### The control systems VISION 51, 52 and 55.
