many more... If you feel like almost giving up on your dream to look young again. don't give up! If you believe in natural healing and skin improvement, this guide is for you

The easiest way to describe what "Face Yoga: Natural Face Lifting in just 14 days" is about, is by the words of Joan Carter: "I decided just before making this booklet not to write too much about theory, just as I did with my Ultimate Balance book. The reason for this can be found in countless books on facial exercises and yoga that include not so many exercises and explanations, but hundreds of pages of numerous theories on aging. To be honest, all of that makes me weary and bored. When I encounter a problem, I don't have time to dwell upon a possible cause and analysis, because my spiritual work has thought me better. I now try to find a solution, I don't spend my precious time on useless theories on what would or should have been. So this book is exactly what I would want to find when searching for useful practice regarding Face Yoga. Exercises and simple but clear explanations of the same and as little as possible "timewasting" on theoretical approaches. So basically, when you have this booklet in your hand, there is absolutely no excuse any more why you should not start today! So get to work and don't waste your time and money any more!

minutes a day. More than 50 muscles make up the structure of the human face, and to a large degree these muscles determine facial appearance. The muscles of the face can be exercised and toned just like skeletal muscles. With this new program a marked difference in appearance will be developed and will potentially eliminate the common desire and need for invasive plastic surgery. Too much sun, cigarette smoking, the degradation of collagen layers and poor skin create sagging facial muscles. Performing the facial gymnastics in this program on a regular basis will reverse a variety of concerns such as "empty" looking cheekbones, floppy jowls, relaxed eyelids, uncomely wrinkles and too much unwelcome elasticity. Catherine Pez prescribes a "facial gym" at home to exercise the muscles in the face with no special equipment -- just some diligence and discipline. The smile works more than twenty five muscles on the face -- so smiling is an important first step. The small and important Risorius muscle is in the corner of the mouth and if well stimulated, will correct a drooping mouth. This muscle also stimulates the other mid-face muscles thereby inflating the cheeks and nothing is as fresh and young-looking as well-accentuated cheekbones. Each exercise has clear instructions, with photographs that demonstrate the movements, so performing each exercise is easy and straightforward.
