Provides definitions of approximately 290,500 English words, arranged alphabetically in twenty volumes, with cross-references, etymologies, and pronunciation keys, and includes a bibliography.

This fully updated edition offers over 120,000 words, phrases, and definitions. It covers all the words you need for everyday use, carefully selected from the evidence of the Oxford English Corpus, a databank of 21st century English, containing over 2 billion words. The Factfinder centre section gives quick-reference entries on topics including famous people, countries, and science. Includes 3 months' access to Oxford Dictionaries Pro at oxforddictionaries.com.

"Based on the New Oxford dictionary of English"--Preface.

Three senior editors at the Oxford English Dictionary examine Tolkien's career as a lexicographer who spent two years on the staff of the OED, analyze its influence on his creative use of language in his fictional works, and probe the origins and meaning of such Tolkienesque words as "hobbit," "Ent," and "mithril."

Offers definitions for English words and phrases, along with observations about the evolution of the dictionary since its first edition and tables that contain information for such topics as countries and chemical elements.

Containing entries for more than 45,000 English, Scottish, Welsh, Irish, Cornish, and immigrant surnames, The Oxford Dictionary of Family Names in Britain and Ireland is the ultimate reference work on family names of the UK. The Dictionary includes every surname that currently has more than 100 bearers. Each entry contains lists of variant spellings of the name, an explanation of its origins (including the etymology), lists of early bearers showing evidence for formation and continuity from the date of formation down to the 19th century, geographical distribution, and, where relevant, genealogical and bibliographical notes, making this a fully comprehensive work on family names. This authoritative guide also includes an introductory essay explaining the historical background, formation, and typology of surnames and a guide to surnames research and family history research. Additional material also includes a list of published and unpublished lists of surnames from the Middle Ages to the present day.
