A nursing case study is a detailed study of an individual patient. Through this type of research, you can gain more information about the symptoms and the medical history of a patient. It will also allow you to provide the proper diagnoses of the patient's illness based on the symptoms he or she experienced and other affecting factors.

Read Book Fundamentals Of Nursing Case Studies Elsevier

Based on a philosophy of active learning, this innovative text uses unfolding case studies as a compelling vehicle for learning fundamental nursing content. Unlike traditional vignettes, these case studies evolve over time as real-life situations, better enabling students to develop the skills they need to problem solve, actively engage, and use critical thinking techniques in new situations.
