Having established a good base for selling cars the MG Company changed the styling for the TD into a much more comfortable and modern vehicle. Again the sales exploded and in three years built nearly three times the number of TC the previous year. The extra boost give by the Mk II kept it going until the TF arrived. This had an even more drastic styling change and not only was it not appreciated, despite a larger engine being fitted, it did not keep up with the current vogue for all enveloping bodies. This only lasted two years until the radically different MGA appeared in 1955. This is a book of contemporary road tests, new model introductions, trials, racing record breaking, service data, technical & performance data. Models covered include:- TD, MkII, TD Record Breaker, Lester-MG, Cooper-MG, TF1250, TF1500, EX179.

Provides an overall introduction to the welding process, illustrating most of the common equipment and work techniques for both the home and shop welding.

Diesel engine is acknowledged for its superior efficiency and possesses a wide field of applications. It is also known as CI engine. Diesel engines also however, are the prime source of emissions such as NOX and particulate matter (PM). In order to reduce the emissions to an absolute minimum, this book explain as to how these toxins can be regulated. It is no hidden secret that the world is witnessing an oil crisis. But with other alternative sources such as biogas, natural gas and coke based substances; diesel is not the only way forward. The unique characteristics and properties such as combustion and emission of the aforementioned alternatives are explained extensively in this book. The book also goes on to explain how one can look for early signs of wear and tear and malfunctioning components of a diesel engine and its parts.

In the bestselling tradition of Michael Pollan's "Second Nature," this fascinating and unique historical work tells the remarkable story of the relationship between Americans and trees across the entire span of our nation's history.

All fiction is character-driven, according to William Bernhardt, despite what you might have heard elsewhere. If your characters don't interest readers, even the most exciting plots will fail. "Action is character," Aristotle wrote, but what does that mean, and how can you use that fundamental principle to create dynamic fiction that will captivate readers? This book explains the relationship between character and plot, and how the perfect melding of the two produces a mesmerizing story. Using examples spanning from The Odyssey to The Da Vinci Code, Bernhardt discusses the art of character creation in a direct and easily comprehended manner. The book also includes exercises designed to help writers apply these ideas to their own work. William Bernhardt is the author of more than fifty novels, including the blockbuster Ben Kincaid series of legal thrillers. Bernhardt is also one of the most sought-after writing instructors in the nation. His programs have educated many authors now published by major houses. He is the only person to have received the Southern Writers Gold Medal Award, the Royden B. Davis Distinguished Author Award (U Penn) and the H. Louise Cobb Distinguished Author Award (OSU), which is given "in recognition of an outstanding body of work that has profoundly influenced the way in which we understand ourselves and American society at large." The Red Sneaker Writing Center is dedicated to helping writers achieve their literary goals. What is a red sneaker writer? A committed writer seeking useful instruction and guidance rather than obfuscation and attitude. Red sneakers get the job done, and so do red sneaker writers, by paying close attention to their art and craft, committing to hard work, and never quitting. Are you a red sneaker writer? If so, this book is for you.

American-born Skye is a good student and a star soccer player who never really gives any thought to the fact that her father is Japanese. Her cousin, Hiroshi, lives in Japan, and never really gives a thought to his uncle's family living in the United States. Skye and Hiroshi's lives are thrown together when Hiroshi's family, with his grandfather (who is also his best friend), suddenly moves to the U.S. Now Skye doesn't know who she is anymore: at school she's suddenly too Japanese, but at home she's not Japanese enough. Hiroshi has a hard time adjusting to life in a new culture, and resents Skye's intrusions on his time with Grandfather. Through all of this is woven Hiroshi's expertise, and Skye's growing interest in, kite making and competitive rokkaku kite flying.

Ant (short for Antonia) is sure she is adopted. She doesn't look anything like her mother or her sisters - or even her dad (who is away working too much). Ant's best friend is a boy called Harrison who draws chickens, and her dog Pistachio, a tiny ageing chihuahua, is her constant companion, but she feels that she just doesn't fit in. Ant's life meanders along until one day her lying starts to cause her, and those around her, some rather serious problems. Forced to face up to some of the things she has spent her life trying to hide from, in particular Ant has to come to terms with why she doesn't get on with her mother. An uplifting, exciting and truly original story.

The Count of Monte Cristo meets Mean Girls in this scandalicious, hilarious tale of friendship, betrayal, makeovers, and revenge.

Few jobs in Hollywood are as shrouded in mystery as the role of the producer. What does it take to be a producer, how does one get started, and what on earth does one actually do? In So You Want to Be a Producer Lawrence Turman, the producer of more than forty films, including The Graduate, The River Wild, Short Circuit, and American History X, and Endowed Chair of the famed Peter Stark Producing Program at the University of Southern California, answers these questions and many more. Examining all the nuts and bolts of production, such as raising money and securing permissions, finding a story and developing a script, choosing a director, hiring actors, and marketing your project, So You Want to Be a Producer is a must-have resource packed with insider information and first-hand advice from top Hollywood producers, writers, and directors, offering invaluable help for beginners and professionals alike. Including a comprehensive case study of Turman's film The Graduate, this complete guide to the movie industry's most influential movers and shakers brims with useful tips and contains all the information you need to take your project from idea to the big screen.

After several disastrous, high-drama attempts at casual hook-ups in his past, he's surprised by his desire to get her all to himself after the coffee shop closes. He soon realizes he may not be as happily single as he thought when he finds himself thinking of her as a serious love interest.
