Krause Publications' Standard Catalog series is available by specific marque, in individual volumes or a set. Each book contains in-depth profiles of specific makes by model, factory photos, and up-to-date vehicle pricing. The I-to-conditional pricing system assures readers of accurate values, whether a vehicle is a #1 low-mileage, rust-free beauty or a #6 parts-only heap. "Techs & specs", original factory prices, production and serial numbers, and engine/chassis codes are noted by model, thus helping you determine authenticity accuracy. Historical, technical and pricing information are combined from hundreds of sources. James Flammang values each model according to the popular 1-6 grading system invented by Old Cars magazine.

New edition of a standard college textbook.

Since the publication of the first edition, considerable progress has been made in the development and application of active noise control (ANC) systems, particularly in the propeller aircraft and automotive industries. Treating the active control of both sound and vibration in a unified way, this second edition of Active Control of Noise and Vibra

An integrated collection of a dozen of Peter Earl's lively and thought-provoking essays, carefully edited and updated. Theoretical topics include the prediction of corporate behaviour, the economic foundations of marketing and shopping mall design, pricing strategy and its relationship with the existence of second-hand markets, and the microfoundations of macroeconomics. Case studies include co-operation in the car industry, managerialist reforms in New Zealand and the university sector, structural change in the advertising industry and the place of GB Richardson and GLS Shackle in the literature of economics.
