It was with great sadness that I learned of the passing of Professor Ira N. Levine last month (December 2015). I was among the first students in his debut class in quantum chemistry back in the late 1960's.

It may be Quantum Chemistry, rather than Quantum Mechanics, but aside from the chemical modeling which isn't as applicable for physicists, Levine just does a better job of conveying quantum

mechanics than most Q.M. books I've seen. He's able to keep things simple, and not clog up the logic process with mathematical proofs.
