Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in-depth reviews.

Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in-depth reviews.

Employing biblical examples to ensure that decisions meet Christian and ethical standards, this inspirational guide outlines a seven-step plan for making decisions

Every researcher or diagnostician working with reptiles has faced the challenge of identifying reptile hemoparasites and then determining whether they are of importance or merely incidental. Another challenge is how to easily find the information required to make the proper identification. A distillation of knowledge from world-renowned expert Sam R. Telford, Jr, Hemoparasites of the Reptilia: Color Atlas and Text provides a comprehensive compilation of information on how to differentiate between the myriad species of reptile hemoparasites. The atlas provides diagnoses for 262 species of plasmidiids, hemogregarines, hemococcidians, trypanosomes, and leishmanias, including descriptions of eight new species or new taxonomic designations. It also discusses lesser known groups, such as piroplasms, rickettsiae, chlamydia, and erythrocytic viruses. Each genus and many species are represented among the 166 taxa illustrated in color. The species accounts contain host and geographic distribution, with precise localities when possible, prevalence, life cycles and vectors when known, effects upon the host, and ecology of the host-parasite relationship, morphological variation, and an exhaustive bibliography. The book also includes an illustrated key showing diagnostic characters. Telford draws on his 45 years of experience and his personal collection, considered the world's most complete, to provide information on the morphology of the unicellular parasites of reptilian blood. He includes information from hard-to-find original papers and articles from sources throughout the world. The illustrated key and photomicrographs from Telford's collection make identifying species quicker and easier.

Ben Hogan's former ball shagger recounts firsthand stories of the golf legend and reveals, for the first time, Hogan's Swing Secret, a source of mystery to golfers for more than fifty years. Ben Hogan's pro golf record is legendary. A four-time PGA Player of the Year, he celebrated sixty-three tournament wins and became known as a man of few words and fewer close friends. Most of what we know about Hogan has been based on myth and speculation. Until now. In the 1960s, though Hogan's competitive career was over, he kept the practice habits that made him famous and remade modern competitive golf. He hired seventeen-year-old Jody Vasquez to help. Each day, after driving to a remote part of the course at Shady Oaks Country Club, Hogan would spend hours hitting balls and Vasquez would retrieve them. There, and over the course of their twenty-year friendship, Hogan taught Jody the mechanics of his famous swing and shared his thoughts on playing, practicing, and course management/unknowingly revealing much about his character, values, and beliefs, and the events that shaped them. In Afternoons with Mr. Hogan, Jody Vasquez shares dozens of stories about Hogan, from the way he practiced, selected his clubs, and interacted with other star players to his little-known humor and generosity. Combining the gentle insight of Tom Kite's A Fairway to Heaven (which recalls Kite's golf education under Harvey Penick) with the sage perspective of Penick's own Little Red Book, Vasquez's tribute is funny, poignant, and full of advice for golfers of all levels.

In a time of great agricultural and rural change, the notion of 'multifunctionality' has remained under-theorized and poorly linked to the debates in the social sciences. This book analyses the extent to which the proposed transition towards post-productivist agriculture holds up to scientific scrutiny, and proposes a new transition theory.

A gothic gangster horror in three parts tells the epic story of two criminal masterminds who sought glory through bloodshed, love through passion, and redemption through street justice. They found instead brutality, betrayal, and death.
