Star Trek Deep Space Nine

The main thing that makes "Deep Space Nine" different is that it is a Star Trek series for folks who don't want a lot of technobabble (not that there isn't any) Star Trek, where problems just go away or perfect people on a perfect ship that always win. It makes it more interesting for the watcher, almost like reading a novel.

And so, in summary, I really enjoyed DS9, and would agree with those who rate it the best Star Trek series. It isn ' t perfect, but that would be impossible in a series so long. It is at its best when it is both hard sci-fi, and is using sci-fi as a vehicle for exploring the nature of the human condition.

At the turning point of the Dominion War, Captain Benjamin Sisko of Starbase Deep Space 9™, facing certain defeat by the relentless forces of the Jem'Hadar and the Cardassians, went through with a secret plan to secure the aid of the Federation's longtime adversaries, the Romulans. What began as a desperate attempt to save lives became a descent into an abyss of deception, moral compromises, and outright criminal acts, as Sisko sacrificed every ideal he held dear in order to preserve the civilization that espoused those selfsame principles. Now the aftermath of that choice is revealed for the first time as Sisko is summoned to Earth to take part in the first Allied talks to come out of the Federation's new partnership with the Romulans. But Sisko's conscience weighs heavily on him, compelling him to seek some kind of penance for what he has done...while elements within Starfleet itself set in motion a scheme to use Elim Garak as a pawn against a human political dissident who may hold the key to the outcome of the war.

Colonel Kira and the surviving crew of DS9 - along with four controversial new officers - are all that stand against the outbreak of a new conflict and a doom foretold by the Prophets to coincide with the birth of Captain Benjamin Sisko's child. Meanwhile, Captain Jean-Luc Picard and the crew of the USS Enterprise make a startling discovery, one that will determine the course of an entire civilisation and profoundly affect the lives of the crew of Deep Space Nine...

Political tensions on Bajor are once again on the rise, and the various factions may soon come to open conflict. In addition, a series of murders has shaken everyone on board the station. While Security Chief Odo investigates the murders, Commander Sisko finds himself butting up against a new religious faction that plans to take over Bajor and force the Federation to leave Deep Space Nine. Odo soon traces the murders to a bizarre and dangerous form of holosuite technology—a technology that turns it's users into insane killers and now threatens Sisko's son, Jake. As the situation on Bajor deteriorates, Sisko learns that the political conflict and the new holosuites are connected. Both are the work of a single dangerous man with a plan that threatens the very fabric of reality. The plot is darker than anything Sisko has faced before, and to defeat it, he must enter the heart of a twisted, evil world where danger lurks in every corner and death can come at any moment—from the evil within himself, from his closest friends, or even at the hands of his own son.

Showcasing the concept art behind the Deep Space 9 station itself, the U.S.S. Defiant and dozens more ships from the award winning Star Trek series, Deep Space 9 is considered by some as the best Star Trek series. The fifth in the series of Star Trek Designing Starships is built around original production art and extensive interviews with the station and ships' designers, explaining exactly how the ships came into being. The award-winning series Deep Space Nine ran for seven seasons and 176 episodes, from January 1993 to June 1999.

A boy looks up. He sees a Cardassian's hand on his shoulder and knows that this is usually a prelude to a beating or, if he is fortunate enough, arrest. The boy knows how many disappeared during the Occupation of Bajor. So he does the one thing he can think of: he bites the Cardassian. Then the nightmare begins. He is ripped from the family that took him in as an orphan, clothed him, fed him, always loved him unconditionally. And no matter how earnest, how caring the commander of Deep Space 9 is, the boy knows this is all a horrible mistake. How can someone from Starfleet judge him by what he looks like, not by what he is? He prays to the Prophets: he is Bajoran. They all keep telling him that the test proves the large Cardassian man is his father, that the other Cardassian -- that oily gul -- took him away from his father. But the boy keeps telling them that he is Bajoran, he only wants to go home with his father. So they send Rugal home -- to Cardassia. On the homeworld of the Cardassian Union where sacrifice and devotion to the state are surpassed only by the government's need to keep its people in check, one very lonely boy discovers that if he doesn't resist, his life -- like those of so many others -- will be added to the tally of the never-ending sacrifice.

An insider's view of the making of the hit series "Star Trek: Deep Space Nine" offers anecdotes, insights into what viewers see, little-known stories, and a detailed look at every stage of production

The Ferengi are greedy, avaricious, ruthless, cowardly and completely unscrupulous. For centuries the famous Ferengi Rules of Acquisition have been the guiding principles of the galaxy's most successful entrepreneurs. These 285 Rules of Acquisition range from, #1 "Once you have their money, never give it back." to #21 "Never place friendship before profit." These rules and hundreds more have taken many successful Ferengi to new frontiers of profit.

When Quark brokers a lucrative deal to trade trillium crystals from the Gamma Quadrant for gold-pressed latinum, the potential for profit seems too good to be true. It is. Pretty soon, Deep Space Nine is under fire from at least three different alien races, each accusing the others of theft, piracy, and worse. Then, angry Klingons get involved, and so do the Ferengi... Odo wouldn't mind seeing one of Quark's schemes backfire, but not when it places the entire station in the middle of a shooting war that might consume them all!
