A brand-new Seek and Find adventure for Shopkins fans--with a character from season 4 blistered onto the cover! In this brand-new Seek and Find adventure, Shopkins fans will search for their favorite characters from seasons 1-4 and be able to play with the 2 pages of scented stickers, and also a character from season 4 that is blistered to the cover! Shopkins fans may want to buy more than one copy of the book because each book contains one of four random characters from season 4 blistered to the cover.

Haynes disassembles every subject vehicle and documents every step with thorough instructions and clear photos. Haynes repair manuals are used by the pros, but written for the do-it-yourselfer.

What can we learn about networks from ants, honeybees, and other animals with evolved social structures? The impact of information and communications strategies on network dynamics did not arrive with the emergence of computers, cell phones, and the Internet. This chapter describes communication networks selected from among many that have been studied in communities of nonhuman organisms. It explores the extent to which communication linkages have controlled the development of those networks. In some of those networks, developmental histories are manifest as evolved body plans and gender roles not represented in human communities. Many of those networks are founded on efficient exchange of information via pathways of which humans are almost fully oblivious.
