through a detailed examination of the behavioural insights for tax and benefit policy. We focus on four aspects of tax and benefit policy: (1) raising revenues efficiently and minimising economic distortions; (2) policies to ‘ correct ’ behaviour; (3) redistribution of income; and (4) minimising fraud and error.

Tax and benefit policy: insights from behavioural economics

Some recent evidence has come from policy trials looking at the impact of ‘ nudges ’ which relate to aspects of tax policy. For example, HMRC and the Behavioural Insights Team at the Cabinet Office conducted an experiment with the wording of letters sent to people asking them to pay outstanding taxes. People receiving a letter telling them about compliance rates in their local area were much more likely to respond quickly than those sent a
