Public spaces are no longer democratic spaces, but instead centres of private commerce and consumption, and even surveillance and police control. "The Politics of Public Space" extends the focus of current work on public space to include a consideration of the transnational - in the sense of moving people and transformations in the nation or state - to expand our definition of the 'public' and public space.

*The Politics of Public Space - Google Books*

Whoever controls public space sets the "program" for representing society. Since the late 1960s, regimes of public space in all cities have become more democratic, inclusive, and tolerant. Political demonstrations, performances, and festivals have made public spaces more dynamic, more attractive, more open to different social groups.
