The Columbian Exchange: Crash Course World History #23**World Studies The United States**

But the world will already be a year into that crisis, and far from establishing a capacity for leadership, the United States is an object of international pity or even horror. U.S. citizens are barred from travelling to most countries, and the country is self-isolated from the global vaccine response coordinated through the World Health Organization.

The United States is ranked 3rd among 32 countries in the Americas region, and its overall score is well above the regional and world averages.

~~United States Economy: Population, GDP, Unemployment~~ ~~---~~

The US has a Gini coefficient of about 41 right now, and as such, is the G7 nation with the highest level of income inequality in the world. Experts say that when the income gap widens, the middle class can end up taking on debt they cannot pay off, and crime rates go up, both of which are bad for everyone.

After 1945, the United States sat mostly atop the world, as the dominant power in military, economic, ideological, and diplomatic terms—all the more so after the Soviet Union collapsed in 1991. Today the United States finds itself not apart or atop but rather amid the world, both shaping and being shaped by global events and forces.
